

Safety in Design

In response to global concerns, and new regulations regarding safety issues in the design of plant and equipment, Enterprise Risk Management Solutions (**erms**) has developed an innovative new training program to introduce the principles of Safety in Design (SiD).

Statistics from studies conducted by Australian and UK safety authorities indicated design-related issues contributed to 37% fatalities studied and 30% of serious non-fatal injuries.

Further studies show that half of all accidents in construction activities could have been prevented by designer intervention. Equipment designers of tools, plant and equipment could have reduced the risk in 60 of 100 accidents.

At **erms** we help our clients through tailored training and this course, for mining, oil and gas, rail, and other major infrastructure, covers the following:

- What is Safety in Design?
- The Benefits of SiD
- SiD Requirements
- WHS Requirements
- Compliance with Statutory Obligations
- Compliant Process

Safety in Design information

Benefits of attendance

Includes an understanding of the principles of Safety in Design which help to eliminate the costs of rework, inefficiency, failure to satisfy legal obligations and retrofitting safety solutions.

Who should attend?

Engineering managers, engineers, designers, O&M representatives or contract managers, safety professionals involved in prevention rather than incident investigation.

When

Courses are held regularly at our Adelaide office. Please contact us on (08) 8271 5007 to identify the next available training date.

Where

Suite 8, 13-15 King William Road, Unley, South Australia 5061.

On-site parking is not available for this course. All day parking is available on Bartley Crescent running parallel to the tram line opposite erms and the office is within easy walking distance from tram and bus stops.

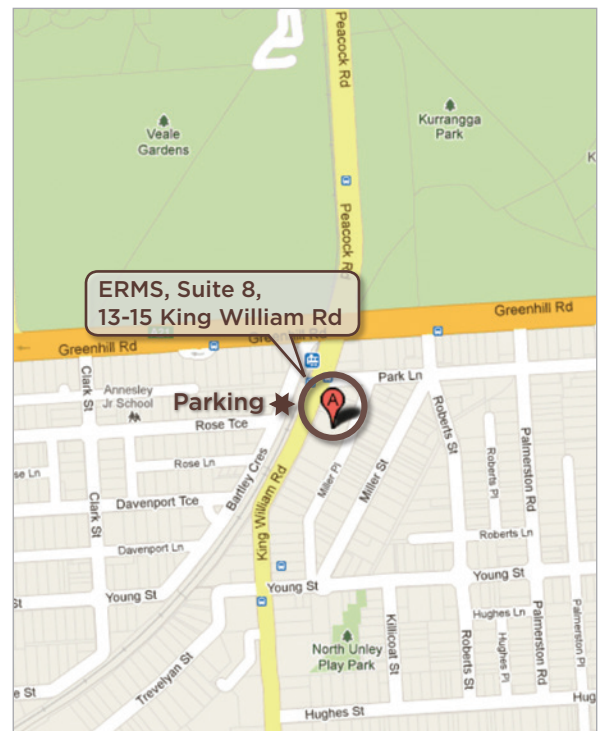

Cost

\$990 inc GST.

This includes course materials, booklets, refreshments and lunch.

Courses run for one day. Please arrive at 8.15am for an 8.30am start. The course will conclude at 4.30pm.

Morning tea and lunch will be provided and tea, coffee and water will be available throughout the day. If you have any specific dietary requirements, please notify us so we can arrange alternative meals.
